ANNOUNCEMENTS:

For many years, our Sunday sound person has been making both a videotape and an audiotape of each Sunday's service, and making these available to the congregation. Our equipment for this is wearing out, and the technology is also becoming dated. The sound people would like to know if you are still making use of the tapes. Should we continue taping services? Should we find some other way of saving the services for people to listen to them or see them later? Talk to one of the sound people, or call the church office, to tell us what you think.
